The Nurse Apprentice, 1860-1977

Nurse's Notes Volume I is a happy collection of beautiful, inspiring, victorious articles sharing the love and faith and peace of the Lord, and giving the reader something to sing about in times like these. This book is based on scripture and drawn from real life challenges and victories -- a "sparkle" for folks who enjoy really good things, the true things in life. Nurse's Notes -- it's all about Jesus and you.

The American Journal of Nursing

Totaled is a full length, new adult, contemporary romance novel. Due to mature content, profane language, and sexual situations, this book is recommended for ages 18 and up. Bree Murphy is stuck. Forced to grow up too fast after the tragic death of her mother, she has little time for any sort of life for herself. Now in her early twenties, she is coming to the realization that she deserves to put herself first. Drew Dougherty is also stuck, in a state of merely existing. Memories and secrets of the day he lost both of his parents haunt him, forcing him to cope the only way he knows how by fighting. When these two worlds collide, hidden truths are revealed and relationships are put to the ultimate test. At a crossroad in their lives, they must decide if taking a risk is worth everything. Or will their love be Totaled.

How to Treat People: A Nurse's Notes

Strange things can happen on Midsummer Night. A funeral pyre can burn and a girl can slide through time. After that things

just keep getting stranger for Roxy Hart. There are witch trials and ferrymen, corsets that pinch and young girls with dark secrets. Of course Roxy knows someone needs saving, but who, how and from what? Join Roxy Hart as she denies destiny, reallocates luck and sifts truth from lies to find a reality she never could have imagined.

Soul Directive

Vicky is desperate to make her mark, in a world which just doesn't seem to notice her. Silence and smiles hide the pain that Nell is keeping to herself. Sarah's dreams of having a family seem hopeless. And then there's Shannon, who's in trouble at school yet again. But what these four women don't know is that someone - or something - is watching them. A much-recycled soul, suspended between one life and the next, realises that Vicky, Nell, Sarah and Shannon are embarking on their journey towards Motherhood. As memories from past incarnations return to this Soul, it becomes clear that one of these women will be chosen to guide it once more. Soul to take explores what it is to become a parent and considers the possibility that actually, our children are the ones who carefully select us.

The Soul Throne Chronicles - Book VI

In Nursefluence, Daniel Truth Morgan explains how to improve patient satisfaction by teaching the principles and techniques explored in the book. This influential "self-help book for nurses" helps you unlock your hospital's potential by providing methods to create a more cohesive nursing team, one nurse at a time. This book takes less than an hour to read, but its unique insights can last a lifetime.

Take That Nursing Home and Shove It!

Judith Allen Shelly and Arlene B. Miller write from a historically and theologically grounded understanding of nursing as a vocation. They give nurses a framework for understanding and living out that vocation: service to God through caring for others.

Nursefluence

Firefly meets Lord of the Rings in an epic fantasy adventure setting. It's been more than 200 years since the Myst Wars devastated the world. The dragons that once ruled the skies have vanished. Pirates and slavers roam the high seas, and an army of undead thralls and black armored mercenaries, led by a powerful Deathknight General, marches across the lands of the Flaness; killing all who will not swear fealty to the Arch-Lich, Kyshon. Skadi, a golden eyed barbarian woman, Tenji - a

spear wielding witch warrior, and Leon D'Rouge - a rogue archer; awaken in the holding cells of a burning slave galleon adrift in the tropical waters of the Azure Sea; with no memories of their previous lives, or how they got captured. After freeing the ship from its cursed, undead crew, the three newfound friends rescue a rag-tag cadre of imprisoned pirates on a nearby island, and set off in search of their memories. On the journey that unfolds, the adventurers find themselves hunted by monsters and haunted by demons they cannot remember, and fighting to fulfill a prophesy they cannot escape. This is family friendly, "Flinch Free Fiction." Written to engage readers of all ages; young adults, RPG Gamers, science fiction fans, epic fantasy, dark fantasy, and heroic fantasy fans. Readers who enjoy fast paced action, detailed martial sequences, subtle humor, strong female leads, complex characters, and rich visual imagery will find this series to be time well spent.

Seeking Love

"This very interesting book provides a good overview of the evolution of the art and practice of nursing Recommended."--Choice: Current Reviews for Academic Libraries "This collected work by scholars Smith, Turkel, and Wolf stands as a classic indeed. It offers nursing and related fields a repository and living history of the evolution of nursing within a caring science paradigm over a 40-year span from foundational ideas and developments, to current work in education, research, and institutional/community practices of caring [The work] sustains and advances knowledge of human caring to serve humanity." From the Foreword by Jean Watson, PhD, RN, AHN- BC, FAAN Founder, Watson Caring Science Institute This is a core resource for nursing educators and students at all levels who seek fundamental perspectives on the art and science of caring. The text comprises 37 classic book chapters and journal articles written by leaders in the field and illuminate the evolution of the caring paradigm--from its beginnings as a philosophical/ethical/theoretical guide to nursing, to implications for the future development of caring science. Co-published with the Watson Caring Science Institute (WCSI), it will also be a primary resource for students attending WCSI programs and for in-service education programs, especially in hospitals with, or seeking, Magnet status. Each section features an introductory essay illuminating important concepts, followed by reflective questions appropriate for baccalaureate, master's, and doctoral levels. Also included are multiple-choice questions, a variety of case studies, a digital teacher and student resource with PowerPoints for key ideas, and more. The book is organized into nine sections providing an in-depth analysis of the evolution of caring scholarship; systematic reviews of the concept of caring; theoretical perspectives, including conceptual orientations, middle-range theories, and grand theories; seminal research studies; research designs and methods; practice models for the integration of caring within contemporary hospital-based practice environments; caring in communities and for the environment; leadership and administrative issues with a focus on caring and economics; and the future of caring science. Key Features: Presents the seminal literature on caring Co-published with the Watson Caring Science Institute Provides reflective/critical thinking questions tailored to academic levels For use in baccalaureate, graduate, doctoral, and in-service education, and as a core resource for WCSI programs Is accompanied by a digital teacher and student guide (please contact

The Soul of the Nurse

Written in the easy-to-understand Incredibly Easy style, this handy reference provides a basic understanding of normal anatomy and physiology of women and neonates as well as the adaptations they make during the stages of pregnancy, birth, and the postpartum period. Includes two four-page, full-color inserts illustrating difficult-to-understand clinical concepts.

Soul 2 Soul

Most people don't become nurses because of the pay, working conditions, or the convenient hours. Men and women become nurses because they want to make a difference in the lives of others through the use of their compassionate skills and hard work. *Chicken Soup for the Nurse's Soul, Second Dose*, underscores why nurses enter the profession . . . and why they stay.

The Soul of Care

Readers will feel they know someone just like the characters in this timely novel on social status and social media. Steen Sand, CEO of Stensure Networks, is the head honcho at an IT firm that's developed an Internet service to monitor, compute, and publish people's social status. His chief operating officer, Irene Lund, serves as his muse. He needs her to be part of his world, or he can't achieve anything of significance. But does she feel the same? Chief financial officer, Michael Jensen, is a hard-core pessimist who has learned the hard way not to speak up against the status quo, in spite of his natural inclination to do so. Jensen's a numbers guy. He relates to spreadsheets better than he does to people. Will this cost him in the end? Louise Hald, chief marketing officer, joined Stensure's management team after leaving her post as an assistant professor at a business school. She's beginning to wonder if she'll ever move past the "assistant" part in the eyes of her coworkers. What can she do to ensure she gets ahead? And then there's Sophie Bech. She's made the long trip back to Denmark from South Africa for her own private reasons, and everything looks different to her now. She wonders what her return will hold for her. Was it a mistake? Will her fresh set of eyes-and values-help or hinder the team? Reductionism-understanding complex things by reducing them to fundamental parts and interactions-comes up against social status, so subtle, intricate, and sought-after, in this intriguing modern-day novel. Will these characters-and their supporting players-make the changes they need to survive in today's world? Or will they succumb to the allure of using easy but underhanded methods to get ahead?

The Nurse

A monthly magazine of practical nursing, devoted to the improvement and development of the graduate nurse.

Comfort Theory and Practice

Caeles Novo continues his journey of seeking broken souls that he started in "Soul Intentions". Caeles is now the leader of his disciples and must discover the mystery as to why so few soul stealers remain on earth. He learns the high cost of both leadership and success. Caeles is assigned to remove the soul of an internet blogger who is spreading false information for the President of the United States, a man who trains fighting dogs and others. He meets up with a Doctor about to cure cancer and a woman with multiple personalities. He does all this while attempting to lead his people and be a good husband and father.

Totaled

I am most excited and impressed with the scope and focus of this work. As I began to read it, I had trouble putting it down. It is highly readable, engaging, all-inclusive, and most informative. Jean Watson, RN, PhD, HNC, FAAN I am honored and delighted to recommend this text for all nurses who cared for and care about patients. from the Foreword by May Wykle, RN, PhD, FAAN This book places comfort at the forefront of nursing care, by presenting a carefully researched theory of comfort that nurses can use as a framework for practice. Engagingly written, the book combines a first-person account of the development of the theory with supporting research, and practical information for its application. Kolcaba analyzes the concept of comfort; describes its physical, psychospiritual, environmental and sociocultural components; evaluates its meaning in the many different contexts in which health care occurs; and describes how it can be measured. The appendix includes comfort care questionnaires that can be used with patients in many settings, and a comfort scale that can be used with patients for a quick assessment of comfort. Clinicians, researchers, educators, and students will find this holistic approach helpful in setting priorities and parameters for patient care.

The Whole Works of the Right Rev. Jeremy Taylor : Life of Christ

The Tetons were so named by early French trappers but the sharp crags and remnant glaciers certainly bear little resemblance to the softness of a woman's breast. The mountains attract many hikers and climbers that risk their lives among the steep ridges and snowfields. Violent death is not uncommon here from exposure, carelessness or just plain bad luck. Then there are some deaths in which fate plays no part.

Nurse's Notes

This collection of true stories champions the daily contributions, commitments and sacrifices of nurses.

Midnight Meditations for Nurses: A Nurse's Soul Revealed

Soul Revival

How does nursing knowledge develop and how do we incorporate this knowledge into the practice of nursing? Is it possible for nursing theory to address the needs of clinical practice? These key questions in the field of nursing are explored in this groundbreaking work. Based on their five-year experience as co-chairs of the New England Knowledge Conferences and the contributions of nurse clinicians and academics, the book addresses issues critical to improving the quality and delivery of health care. Concentrating on four major themes--the current state of nursing knowledge, the philosophy of nursing knowledge, the integration of nursing knowledge with practice, and examples of the impact on health care delivery when nursing knowledge is applied--Nursing Knowledge Development and Clinical Practice gives concrete examples of how nursing knowledge can improve nursing practice and overall health care delivery both today and in the future.

Maternal-Neonatal Nursing Made Incredibly Easy!

The author, a U.S. elder law attorney, uses real-life examples to illustrate how to evaluate current nursing home practices and policies, along with alternative care and associated living choices available for older adults; includes appendices with a nursing home visit evaluation checklist for prospective residents and their family and home care licensing guidelines by state.

Nursing Knowledge Development and Clinical Practice

Doorway to My Soul

The nurse is central to healthcare and has always been the most prominent figure in times of vulnerability throughout the life cycle. The Soul of the Nurse uncovers the complexity of the nurse by tracing her origins as far back as Neolithic times. The author explains how, over time, the nurse image has been split into one-dimensional disguises ranging from angelic heroine to sex object. Without moralizing or dividing the good from the bad, this book investigates the dynamic energy of the nurse archetype and uncovers what has been lost through splits, repressions, and distortions. Mythology, folklore, archeology, and popular culture are explored, while considering history and archetypal psychology, revealing new insights into the vast capacities of the nurse. Through personal and collective stories, The Soul of the Nurse reveals why the nurse

captivates the imagination and is the most trusted professional in society.

Spirituality in Nursing

The British apprenticeship model of nurse training, developed under Florence Nightingale's influence from 1860 at St Thomas's Hospital, gained national and world-wide recognition. Its end was heralded with the publication of the last national syllabus from the General Nursing Council for England and Wales in 1977. This apprenticeship model, a crucial part of the history of British health care for over a century, is the subject of this book. Primary evidence, much of it original, is gained from Parliamentary debates and reports, syllabuses, long neglected nursing textbooks, major governmental and professional reports, and the voices of nurses themselves expressed through their professional journals. Primary sources are systematically re-examined and contextually interpreted in the light of new evidence. The study in particular interprets the contemporary attitudes and moral values underpinning the apprenticeship system, especially the place of vocation. The reasons for the ending of this system, arising in part from the cultural shifts of the 1960s, are explained in relation to this historical moral context. The reader sees how the self-understanding of the profession shifts, with much tension and disagreement, as mores change. The book fills a major gap in the history of nurse training, by giving a sustained account of the apprenticeship model of nursing in context, and charting changing values away from the historic vocational tradition. Its copious use of primary sources will make this a key text for nurses, historians and policy makers.

Called to Care

All Jack Falcone wants to do is be a veterinarian. While hoping to get into school he spends his mornings at the gym, days working at the zoo and his evenings studying. When Adam Buckminster, the man who just may hold the key to Jack's acceptance to school shows up at the gym and begins gaining impossible strength despite doing everything wrong, Jack's life suddenly starts down a spiral of improbable events. Only with the help of the massive Brock Steele and the self-proclaimed knight Wallace Claymore can Jack hope to get things back to normal. A witty, unbelievable romp through the streets of Buffalo, New York ensues that forces the trio to dance the magical line between science and myth.

Soul of the Broken

Becoming a nurse is a calling—it's a tough job but a rewarding one. This collection of 101 heartwarming stories will encourage, inspire, and reassure you that your patients and their families appreciate your compassionate service. Every nurse can use a little pick-me-up these days, and this collection of personal stories will remind you why you became a nurse. All types of nurses share their experiences, their emotions, and even some great tips that will help you make a

difference in the lives of patients and their families.

Heart, Soul and More

Spirituality in Nursing: Standing on Holy Ground, Fifth Edition explores the relationship between spirituality and the practice of nursing from a variety of perspectives, including: * Nursing assessment of patients' spiritual needs * The nurse's role in the provision of spiritual care * The spiritual nature of the nurse-patient relationship * The spiritual history of the nursing profession * Contemporary interest in spirituality within the nursing profession This Fifth Edition includes a new chapter titled, "Prayer in Nursing" which includes information on topics such as the history of prayer in nursing, finding time for prayer in nursing, prayer and nursing practice, and the ethics of praying with patients. A second new chapter titled, "The Spirituality of Caring: A Sacred Covenant Model of Caring for Nursing Practice", explores the history of spirituality in nurse caregiving and spiritual concepts in nursing theories of caring. A concept analysis of nurses' caring as a sacred covenant includes the "Sacred Covenant Model of Caring for Nursing Practice", a model for clinical practice developed by the author.

Her Obsession

Emerging From Darkness trilogy Book 1 One thing I knew: I wasn't that woman anymore. I wouldn't be her anymore. Three years after a bitter divorce, Jessica Winters isn't sure she's ready—or capable—to move on. The thought of another relationship terrifies her, but things quickly change when she meets the playfully witty and handsome sex therapist Matthew Moi. At first, she tries to ignore him, but something in the way he levels his sultry gaze on her awakens her soul. Secretly in love with Jessica, Matthew has been giving her the space she needed to heal. Incapable of waiting any longer and eager to work his way into her broken heart, he seizes an opportunity to have their paths cross. But when her painful past resurfaces, revealing truths that threaten their future, Matthew must prove to Jessica that a shot at true love is worth the risk. Seeking Love is the first book in the Emerging From Darkness trilogy, and as such, is not intended to be a standalone. The trilogy reads as: Seeking Love, Seeking Redemption, & Seeking Hope. Follow Jessica and Matthew's captivating and steamy love story from the beginning—start the trilogy today!

Soul to Take

When a nurse works the night shift in a hospital, it is filled with experiences that can be joyful, sad, frustrating, and mysterious. Follow the journey of one nurse from her student days as a "pinkie" to her time working on a labor and delivery unit, the couple who loses their first child, the newborn who is too little to survive but fights to the end. Live the moment when an ambulance brings teenagers into the emergency department or the moment a patient passes from this world to

the next. Diane takes you on a meditative review of experiences and memories she will never forget. Each meditation is a reflection of emotional ups and downs, realizations of what we can control as nurses and what we leave in the Lord's hands. One meditation at a time, Diane Bouffard (Registered Nurse) reveals her feelings, thoughts, and prayers at individual moments in a nursing world filled with challenges, fears, frustrations, unexpected joy, and unrelenting sadness. These are night shift experiences many nurses have lived, loved, and shared with peers across the world.

Caring in Nursing Classics

Soul of the Broken is a collection of poetry.

The Soul's Mark: Found

When Amelia Caldwell tries to begin a new life, she discovers that her birthmark means more than it seems. She has been marked by a vampire's soul; not only does she hold his soul, she is also his soulmate. Mitchell Lange has been searching almost a century for his soulmate and is determined not to let Amelia go. Since Amelia has no intention of belonging to anyone, they both become trapped on an emotional rollercoaster. As Amelia searches for answers, she becomes caught in the middle of a deadly game of revenge and is forced to realize that you can't run from destiny.

The Whole Works

Search "long-term care insurance" online, and only minutes later you find yourself buried in promises and guarantees: "Buy long-term care insurance with no out-of-pocket expense!" "Long-term care insurance is a good investment!" "The premium will never be less than it is today!" And the list goes on. How can you tell what is truth and what is myth? Do you or your loved one even need to purchase long-term care insurance? The answers to all of your questions lie within the pages of *Nursing Home Fears: A Buyer's Guide for Long-Term Care Insurance*. Let Ken R. Butler, CPCU, ARM, dispel the myths, walk you through the decision-making process regarding whether or not it's in your interest to buy, and help you navigate the complicated policies that are available. An independent and objective risk manager who does not sell insurance, Butler is a leader in the development of best-practice standards for long-term care insurance. Let him direct you to the most important coverage for you, avoiding add-ons that are not worth the money. Gain more than peace of mind—build confidence in your decision regarding you or your loved one's long-term insurance needs.

Nursing Home Fears

This collection of true narratives reflects the dynamism and diversity of nurses, who provide the first vital line of patient care. Here, nurses remember their first “sticks,” first births, and first deaths, and reflect on what gets them through long, demanding shifts, and keeps them in the profession. The stories reveal many voices from nurses at different stages of their careers: One nurse-in-training longs to be trusted with more “important” procedures, while another questions her ability to care for nursing home residents. An efficient young emergency room nurse finds his life and career irrevocably changed by a car accident. A nurse practitioner wonders whether she has violated professional boundaries in her care for a homeless man with AIDS, and a home care case manager is the sole attendee at a funeral for one of her patients. What connects these stories is the passion and strength of the writers, who struggle against burnout and bureaucracy to serve their patients with skill, empathy, and strength.

Chicken Soup for the Nurse's Soul: Second Dose

A fascinating and poignant memoir of the body and its care, told through the experiences of a young nurse. As a teenager, Molly Case underwent an operation that saved her life. Nearly a decade later, she finds herself in the operating room again—this time as a trainee nurse. She learns to care for her patients, sharing not only their pain, but also life-affirming moments of hope. In doing so, she offers a compelling account of the processes that keep them alive, from respiratory examinations to surgical prep, and of the extraordinary moments of human connection that sustain both nurse and patient. In rich, lyrical prose, Case illustrates the intricacies of the human condition through the hand of a stranger offered in solace, a gentle word in response to fear and anger, or the witnessing of a person’s last breaths. It is these moments of empathy, in the extremis of human experience, that define us as people. But when Molly’s father is admitted to the cardiac unit where she works, the professional and the personal suddenly collide. Weaving together medical history, art, memoir, and science, *How to Treat People beautifully* explores the oscillating rhythms of life and death in a tender reminder that we can all find meaning in being, even for a moment, part of the lives of others.

One More

Within our soul there are many rooms. In them contains memories, experiences, imagination, and dreams. Not all are meant to be shared while others need to be. All of them makes us who we are and what we have become during the travels of life. These rooms become unlocked in this collection of poems. Some are merely from the imagination, while others have come from the heart. All are the reflections of the journey within.

Chicken Soup for the Soul: Inspiration for Nurses

A moving memoir and an extraordinary love story that shows how an expert physician became a family caregiver and learned why care is so central to all our lives and yet is at risk in today's world. When Dr. Arthur Kleinman, an eminent Harvard psychiatrist and social anthropologist, began caring for his wife, Joan, after she was diagnosed with early-onset Alzheimer's disease, he found just how far the act of caregiving extended beyond the boundaries of medicine. In *The Soul of Care: The Moral Education of a Husband and a Doctor*, Kleinman delivers a deeply human and inspiring story of his life in medicine and his marriage to Joan, and he describes the practical, emotional and moral aspects of caretaking. He also writes about the problems our society faces as medical technology advances and the cost of health care soars but caring for patients no longer seems important. Caregiving is long, hard, unglamorous work--at moments joyous, more often tedious, sometimes agonizing, but it is always rich in meaning. In the face of our current political indifference and the challenge to the health care system, he emphasizes how we must ask uncomfortable questions of ourselves, and of our doctors. To give care, to be "present" for someone who needs us, and to feel and show kindness are deep emotional and moral experiences, enactments of our core values. The practice of caregiving teaches us what is most important in life, and reveals the very heart of what it is to be human.

Stay Calm and Keep Coloring

Chris Roscoe, son of a policeman, was a corpsman in the Army. After his tour of duty in Vietnam, he went to college to pursue a nursing degree so he could continue to help the sick and injured. Along the way he met Alexandra Walton, a beautiful rich girl. They were classmates and friendly acquaintances, but after the class was over, they went their separate ways until years later when Alex was injured in an accident and admitted to the hospital where Chris worked. They rekindled the friendship; only this time they fell in love. After marriage and a beautiful daughter, Chris discovered that he didn't know his wife. Alex had a hidden past, one that she was ashamed of but that didn't stop her from turning to it when her life wasn't going well, in her opinion, anyway. Chris loved and cherished her; together they had a beautiful new home, a child, and everything she could want, he found out that it wasn't enough. She wanted more, and what she wanted, he couldn't give her. Alex's story is one shared by many. Her struggle with substance abuse affected her marriage and her life.
