The Purposes of Education

The immigration debate has challenged our nation since its founding. But today, it divides Americans more stridently than ever, due to a chronic failure of national leadership by both parties. Here at last is an attainable resolution guided by two core principles: first, immigration is vital to America's future; second, any enduring resolution must adhere to the rule of law. Unfortunately, current laws are so

cumbersome and irrational that millions have circumvented them and entered the United States illegally, taxing our system to the breaking point. Jeb Bush and Clint Bolick contend there are other unique factors currently at play: America's future population expansion will come solely from immigrants. And for the first time, the U.S. must compete with other countries for immigrant workers and their skills. In the first book to offer a practical, nonpartisan approach, Bush and Bolick propose a compelling six-point strategy for reworking our policies that begins with erasing all existing, outdated immigration structures and starting over. From there, *Immigration Wars* details their plan for advancing the national goals that immigration policy is supposed to achieve: build a demand-driven immigration system; increase states' autonomy based on varying needs; reduce the significant physical risks and financial costs imposed by illegal immigration; unite Mexico and America in their common war against drug cartels; and educate aspiring citizens in our nation's founding principles and why they still matter. Here too is a viable variation of the DREAM Act as a legal status for children brought here illegally, and sound strategies for the Republican Party to revitalize their ever-decreasing core constituency. With *Immigration Wars* as a beacon of hope, Americans can finally solidify a national identity that is based on a set of ideals enriched and reinvigorated by immigrants, most of whom fervently embrace our core values—family, faith, hard work, education, and patriotism.

The House by the Sea

This book is written with the sincere conviction that it will convey a message other than the one we have been led to accept about Biblical and other ancient texts. It may change your experience in the way you view life and the concept of God and religion, as well as your relationship with those beliefs. This book is about ancient principles contained in the Bible and many other documents inscribed long ago, such as the Nag Hammadi Library and the Dead Sea Scrolls. Words paint mental pictures that enfold in our minds, and we call this "getting answers." At times, we take these images as the only truth there is, since we can see or imagine it. We base this personally conceived truth on what we learn in life. Should we not ask ourselves: what if all this is based on falsehoods? These mental illustrations - that we call "thoughts" - are founded solely on what we have seen or read. Most of the time, we compare them, and in this fashion, we develop personal beliefs according to our choices. This practice is not specifically reserved for the individual. It spreads throughout our society, when each and every human experiences the same event or feeling, or reads a similar book. As a result, the collective mindset - sometimes called the "over mind" - now generates large-scale belief systems that, in time, we have termed as "religion." Entire nations have been known to bond in the same creed. Even when founded with the best of intentions, these systems tend to bind us as a group, with one mindset going in one direction, while offering no other alternatives. In some respects, this direction may not necessarily be the best or ideal goal toward which we can journey. It does limit us in the centuries-old matter pertaining to God or the God Head, and it affects our individual experience. It also influences what we know about the ancient teachers and prophets of long ago.

When RBS collapsed and had to be bailed out by the taxpayer in the financial crisis

of October 2008 it played a leading role in tipping Britain into its deepest economic downturn in seven decades. The economy shrank, bank lending froze, hundreds of thousands lost their jobs, living standards are still falling and Britons will be paying higher taxes for decades to pay the clean-up bill. How on earth had a small Scottish bank grown so quickly to become a global financial giant that could do such immense damage when it collapsed? At the centre of the story was Fred Goodwin, the former chief executive known as "Fred the Shred" who terrorised some of his staff and beguiled others. Not a banker by training, he nonetheless was given control of RBS and set about trying to make it one of the biggest brands in the world. It was said confidently that computerisation and new banking products had made the world safer. Only they hadn't Based on more than 80 interviews and with access to diaries and papers kept by those at the heart of the meltdown, this is the definitive account of the RBS disaster, a disaster which still casts such a shadow over our economy. In Making It Happen, senior executives, board members, Treasury insiders and regulators reveal how the bank's mania for expansion led it to take enormous risks its leaders didn't understand. From the birth of the Royal Bank in 18th century Scotland, to the manic expansion under Fred Goodwin in the middle of a mad boom and culminating in the epoch-defining collapse, Making It Happen is the full, extraordinary story.

Now a major film starring Jon Hamm, this is the wonderful story of two young Indians who became pro baseball pitchers. JB Bernstein seemed to have it all. One of the top sports agents in the US, he worked hard and enjoyed the bachelor lifestyle to the full. But he hankered for more, and when he set himself a challenge - to unearth someone in India capable of becoming a pro baseball pitcher - most people thought he was mad and doomed to face a costly and public failure. The reality show Million Dollar Arm brought thousands of contestants hoping for a shot at glory, but eventually they unearthed two candidates: Rinku and Dinesh. Bernstein brought them back to the US, put them up in his home and helped them to get used to a very different world, while they also worked hard to learn the game that was second nature to most American sportsmen. Finally, they got their chance and - against all the odds - they were both awarded pro contracts. This heartwarming story has now been made into a film starring Jon Hamm (Mad Men) and Suraj Sharma (The Life of Pi). A true-life version of Slumdog Millionaire meets Jerry Maguire, Million Dollar Arm shows what can happen when you dream big.

Peaks of Europe' is not a traditional landscape photography book. It's the result of a 5-month adventure across 17 countries told through the lens of a European travel photographer who took 29 years to finally explore the continent on which in he was born. The book has been designed for a specific purpose: telling the story of a 5-month road trip and what it takes to be living out of a car for several months, with all the good and bad moments. For this project, Johan Lolos wasn't just documenting the landscapes. This book features a series of photos with a focus on the storytelling as much as the imagery. At the end, the people he met were what he remembered most.

In 2011, Arab youth took to the streets in their thousands to demand their freedom. Although it is too early to speculate on the ultimate outcome of the uprisings, one auspicious feature stands out: they reveal the genesis of a new generation sparked by the desire for civil liberties, advocacy for human rights, and participatory democracy. This unique volume explores some of the antecedents of the upheavals and anticipates alternative venues of resistance that marginalized youth - from Lebanon, Syria and Palestine to Saudi Arabia, Morocco and Iran - can mobilize to realize their emancipatory expectations. Themes covered include the forging of meaningful collective identities in times of risk and uncertainty; youth militancy, neighborhood violence and youth gangs; the surge of youthful activism; and youths' expressive outlets through popular arts and street music.

Studying Muslim fundamentalisms, this book compares key movements, examining their commonalities, differences, and intricate relations, as well as their achievements and failures. Muslim fundamentalisms have the sympathy of approximately half of the Muslim population in the world. Yet, they are divided among themselves and are in a constant state of controversy. The research dwells on the leading fundamentalist movements, such as the Muslim Brothers, Tablighi-Jama'at, al-Qaeda, and ISIS, and illustrates how differently they think about the West and its culture, democracy, and women's presence in the public sphere. By identifying these trends, and studying them comparatively, the book enables the interested reader to make sense of the plethora of fundamentalist movements, which are otherwise lumped together by the media and are barely discernible for the reader. Whereas most studies of Muslim fundamentalism focus on organizational or militant actions that the movements perform, this study concentrates on their efforts to Islamize society through everyday life in a peaceful manner. Identifying the different strands of Muslim fundamentalisms, the book will be a key resource to a wide range of readers including researchers and students interested in politics, religious, Islamic and Middle Eastern Studies.

Since the 2004 enlargement of the European Union over half a million Polish migrants have registered to work in the United Kingdom, constituting one of the largest migration movements in contemporary Europe. Drawing on research undertaken across a wide range of disciplines - history, economics, sociology, anthropology, film studies and discourse analysis - and focusing on both the Polish and British aspects of this phenomenon - both emigration and immigration - this edited collection investigates what is actually new about this migration flow, what its causes and consequences are, and how these migrants' lives have changed by moving to the United Kingdom. As the first book to deal with Polish migration to the United Kingdom, Polish Migration to the UK in the 'New' European Union will appeal to scholars across a range of social sciences, whose work concerns migration and the migration process.

Haven of Obedience

Imagine sneaking away to spend seven days with the most famous woman in the world... In 1956, fresh from Oxford University, twenty-three-year-old Colin Clark began work as a lowly assistant on the set of *The Prince and the Showgirl*, the film that united Sir Laurence Olivier with Marilyn Monroe. The blonde bombshell and the legendary actor were ill suited from the start. Monroe, on honeymoon with her new husband, the celebrated playwright Arthur Miller, was insecure, often late, and heavily medicated on pills. Olivier, obsessively punctual, had no patience for Monroe and the production became chaotic. Clark recorded it all in two unforgettable diaries—the first a charming fly-on-the-wall account of life as a gofer on the set; the other a heartfelt, intimate, and astonishing remembrance of the week Clark spent escorting Monroe around England, earning the trust and affection of one of the most desirable women in the world. Published together here for the first time, the books are the basis for the upcoming major motion picture *My Week with Marilyn* starring Michelle Williams, Judi Dench, and Kenneth Branagh. England was abuzz when Monroe arrived to shoot *The Prince and the Showgirl*. She hoped working with the legendary Olivier would give her acting further credibility, while he hoped the film would give his career a boost at the box office and some Hollywood glamour. But Monroe, feeling abandoned when Miller left the country for Paris, became difficult on the set. Clark was perceptive in his assessment of what seemed to be going wrong in Monroe's life: too many hangers-on, intense insecurity, and too many pills. Olivier, meanwhile, was impatient and condescending toward her. At a certain point, feeling isolated and overwhelmed, Monroe turned her attention to Clark, who gave her comfort and solace. Before long, she escaped the set and a remarkable true adventure took place. Monroe and Clark spent an innocent week together in the English countryside and Clark became her confidant and ally. And, like any man would be expected to, he fell a bit in love. Clark understood how best to handle Monroe and became Olivier's only hope of getting the film finished. Before long, young Colin was in over his head, and his heart may well have been broken by the world's biggest movie star. A beguiling memoir that reads like a fable, *My Week with Marilyn* is above all a love letter to one of our most enduring icons.

“This tightly written tale rollicks along at a great pace.”—FINANCIAL TIMES When adventurer Jason Lewis regained consciousness beside a busy Colorado highway, lower limbs shattered by a hit-and-run driver, he knew he was lucky to be alive. But would he ever walk again, let alone finish crossing North America by inline skates? So begins part two of *The Expedition*, a stirring saga of hope, determination, and the kindness of strangers as Jason, taken in by the people of Pueblo, spent nine months in rehabilitation, legs pieced together with metal rods, before returning to the spot he was run over and continuing on. Inspired by the journey, others sought to join, including a middle-aged mother-cum-schoolteacher yearning to see the world. For the expedition wasn't just a line on a map. What could possibly go wrong in paradise? Tired of mortgage payments, thirty-something Andrew and Gwynn sold nearly everything they owned but their Siamese cat and escaped their humdrum nine-to-five existence for life in paradise—a tiny island in one of the remotest spots on Earth: the Okavango Delta in Botswana. Woefully inexperienced, they took control of a luxury game lodge that catered to the likes of French aristocrats, Hollywood directors, Mafia lawyers, and the captain of the England cricket team. Not forgetting the hippos who liked to crash cocktail hour. Trouble soon followed as the reality of running a hotel on an island accessible only by boat or plane burst upon them. Andrew and Gwynn learned it's one thing for guests to wake up with gentle giraffes outside their windows, but it's quite another to keep them safe from poisonous snakes, temperamental elephants, and a hyena with a taste for plastic. All that was child's play compared to figuring out how to feed their guests when a 'quick run' to the grocery store required a plane, a bush pilot, and moderate risk to life, limb, and property. By turns funny, touching, and suspenseful, Torn Trousers is a real modern fairytale about getting exactly what you wished for...and then having to live with it. Making It Happen

In 1992, Lois Duncan, acclaimed author of fictional suspense novels, wrote a horror story she could never have imagined writing—a true account of the murder of her own daughter, Kaitlyn Arquette. Kait, 18, was shot to death as she drove home from a friend's house on a Sunday evening in Albuquerque, New Mexico. Police closed the unsolved case as a "random shooting," refusing to accept information that indicated otherwise, although it had all the earmarks of a professional hit. That first book, WHO KILLED MY DAUGHTER?, was Duncan's desperate attempt to motivate informants and prevent the facts of Kait's story from becoming buried. It turned out to accomplish much more than that. Duncan's new book, ONE TO THE WOLVES: ON THE TRAIL OF A KILLER, is even more horrifying than its predecessor as new information poured in, the family ran for their lives, and their original suspicions turned out to be the tip of an iceberg so immense that Kait, herself,

could not have known how dangerous the information was that she had been sitting on in order to protect a now-estranged boyfriend. Since Kait didn't live to reveal it, her mother now does so in a book so intense and yet so painfully human that the reader will never forget it. All of the elements of a suspenseful mystery are here--intrigue, turns and twists, cover-ups, and page-turning action. The sobering fact is that, this time, the story isn't fiction.

Conversations include: What are the purposes of education? Does educational data speak for itself? What is the role of the teacher? Is learning a visible phenomenon? Is it important to teach and learn specific subjects? What is the role of neuroscience research? What is the relationship between educational research and educational politics? The Seed Buried Deep (The Expedition trilogy, Book 2)

The story of the Soviet Union's cars has to be seen in the context of a planned society in which everything was planned well in advance, and consumer items were not a priority until well after the Second World War. This extraordinarily detailed study charts the history of Soviet cars from the birth of the Soviet Union in 1917 until its demise in 1990, with a conclusion about the post-Soviet era. It is the story of an insular, state-run car industry in which the carefully thought-out ideas of ministerial planners, rather than fickle customers in a free market, determined what cars were made in a country where the open road was often a 300-mile track across a windswept steppe.
