conducting business transformations—defining and implementing a redirection in the company’s core business or in its strategic positioning. Starting where such programs as LEAN and Six Sigma leave off, the text offers a well-proven methodology for conducting a comprehensive transformation (not a process-by-process efficiency enhancement). The book provides dozens of forms, figures, templates, and checklists the authors have developed through personal experience leading successful corporate efforts. In a sequence paralleling the process of transformation, individual chapters are devoted to the roles and responsibilities of the company leadership, the workforce, and the board of directors. Principles are reinforced by illuminating key success factors by examining government and commercial projects from the United States, Canada, and the United Kingdom. Written by two individuals with proven track records, this book is sure to produce success in any transformation endeavor.

The cell phone is the fastest-selling consumer electronic in the world. On a global

basis, over 800 million cellular telephones are sold yearly. More camera-equipped cell phones are sold each year than stand alone digital cameras. Rapid development of new technologies is leading to ever more versatile, multipurpose mobile devices, including 3G Internet-enabled cell phones and PDAs. Meanwhile, wireless networking and wireless Internet access are developing and expanding on a global basis at a rapid rate. Booming technologies include such 802.11 standards as Wi-Fi and WiMax, as well as Ultra Wide Band (UWB) and Bluetooth. Telematics, intelligent transportation systems (ITS) and satellite radio will soon create an entertainment, navigation and communications revolution within automobiles and trucks. Meanwhile, RFID (radio frequency identification) will revolutionize wireless tracking, inventory and logistics at all levels, from manufacturing to shipping to retailing. These developments are creating challenges for legacy companies and opportunities for nimble marketers and managers. Plunkett's Wireless, Wi-Fi, RFID & Cellular Industry Almanac 2008 covers such sectors. Our coverage includes business trends analysis and industry statistics. We also include a wireless and cellular business glossary and a listing of industry contacts, such as industry associations and government agencies. Next, we profile hundreds of leading companies. Our 350 company profiles include complete business descriptions and up to 27 executives by name and title.
