This workbook gives students space outside of the main text to complete the Section Review pages. Every Section Review from every chapter in the book appears twice in this workbook to give students multiple opportunities to practice. Students can complete each Section Review once while reading the chapter and again right before an exam to help them review the material. Answers to the Section Reviews are included at the back of the workbook. The Visual Outline with Key Terms is a feature unique to the workbook, appearing only in the workbook and not in the book. For every module in every chapter, students see the module number, module title, a key visual from the module, and a list of key terms from the module, and they have writing space to summarize the content of each module, using the terms in the order provided. This is a value pack item that can be added to any student package for no additional charge.
