This collection of manifestos, Supreme Court decisions, congressional testimonies, speeches, articles, book excerpts, pastoral letters, interviews, song lyrics, memoirs, and poems reflects the vitality, diversity, and changing nature of religious belief and practice in American public and private life over the last half century. Encompassing a range of perspectives, this book illustrates the ways in which individuals from all along the religious and political spectrum have engaged religion and viewed it as a crucial aspect of society. The anthology begins with documents that reflect the close

relationship of religion, especially mainline Protestantism, to essential ideas undergirding Cold War America. Covering both the center and the margins of American religious life, this volume devotes extended attention to how issues of politics, race, gender, and sexuality have influenced the religious mainstream. A series of documents reflects the role of religion and theology in the civil rights, feminist, and gay rights movements as well as in conservative responses. Issues regarding religion and contemporary American culture are explored in documents about the rise of the evangelical movement and the religious right; the impact of "new" (post-1965) immigrant communities on the religious landscape; the popularity of alternative, New Age, and non-Western beliefs; and the relationship between religion and popular culture. The editors conclude with selections exploring major themes of American religious life at the millennium, including both conservative and New Age millennialism, as well as excerpts that speculate on the future of religion in the United States. The documents are grouped by theme into nine chapters and arranged chronologically therein. Each chapter features an extensive introduction providing context for and analysis of the critical issues raised by the primary sources.

The Real Witches' Book of Spells and Rituals

Popular Hinduism is shaped, above all, by worship of a multitude of powerful divine beings--a superabundance indicated by the proverbial total of 330 million gods and goddesses. The fluid relationship between these beings and humans is a central theme of this rich and accessible study of popular Hinduism in the context of the society of contemporary India. Lucidly organized and skillfully written, *The Camphor Flame* brings clarity to an immensely complicated subject. C. J. Fuller combines ethnographic case studies with comparative anthropological analysis and draws on textual and historical scholarship as well. The book's new afterword brings the study up-to-date by examining the relationship between popular Hinduism and contemporary Hindu nationalism.

In the twenty-first century, American popular culture increasingly makes visible the performance of African spirituality by black women. Disney's Princess and the Frog and Pirates of the Caribbean franchise are two notable examples. The reliance on the black priestess of African-derived religion as an archetype, however, has a much longer history steeped in the colonial othering of Haitian Vodou and American imperialist fantasies about so-called 'black magic'. Within this cinematic

study, Martin unravels how religious autonomy impacts the identity, function, and perception of African women in the American popular imagination. Martin interrogates seventy-five years of American film representations of black women engaged in conjure, hoodoo, obeah, or Voodoo to discern what happens when race, gender, and African spirituality collide. She develops the framework of Voodoo aesthetics, or the inscription of African cosmologies on the black female body, as the theoretical lens through which to scrutinize black female religious performance in film. Martin places the genre of film in conversation with black feminist/womanist criticism, offering an interdisciplinary approach to film analysis. Positioning the black priestess as another iteration of Patricia Hill Collins' notion of controlling images, Martin theorizes whether film functions as a safe space for a racial and gendered embodiment in the performance of African diasporic religion. Approaching the close reading of eight signature films from a black female spectatorship, Martin works chronologically to express the trajectory of the black priestess as cinematic motif over the last century of filmmaking. Conceptually, Martin recalibrates the scholarship on black women and representation by distinctly centering black women as ritual specialists and Black Atlantic spirituality on the silver screen.

Goddesses, Ghosts, and Demons

This book contains the first comprehensive examination of popular familiar belief in early modern Britain. It provides an in-depth analysis of the correlation between early modern British magic and tribal shamanism, examines the experiential dimension of popular magic and witchcraft in early modern Britain, and explores the links between British fairy beliefs and witch beliefs. In the hundreds of confessions relating to witchcraft and sorcery trials in early modern Britain there are detailed descriptions of intimate working relationships between popular magical practitioners and familiar spirits of either human or animal form. Until recently historians often dismissed these descriptions as elaborate fictions created by judicial interrogators eager to find evidence of stereotypical pacts with the Devil. Although this paradigm is now routinely questioned, and most historians acknowledge that there was a folkloric component to familiar lore in the period, these beliefs, and the experiences reportedly associated with them, remain substantially unexplored. This book examines the folkloric roots of familiar lore from historical, anthropological and comparative religious perspectives. It argues that beliefs about witches' familiars were rooted in beliefs surrounding the use of fairy familiars by beneficent magical practitioners or cunning folk', and corroborates this through a comparative analysis of familiar beliefs found in traditional Native American and Siberian shamanism. The author explores the experiential dimension of familiar lore by drawing parallels between early modern familiar encounters and visionary mysticism as it appears in both tribal shamanism and medieval European contemplative traditions. These perspectives challenge the reductionist view of popular magic in early modern Britain often presented by historians.

This study seeks to fill this gap for the Chhotanagpur tribal area. It embraces in its wide sweep an extensive coverage of the tribal scene in Bihar. Taking villages predominantly inhabited by different tribes on various socio-economic levels, the author tries to set up the model of an average tribal village in Bihar. He examines the extent to which such a village can be viewed as a unity and also its extensions in various social fields. The danger of studying a village in isolation from its neighbourhood or from its history has been avoided. The entire social process has been analyzed in the background of the history of the region

Holland's Grimoire of Magickal Correspondence

In *Adventures of the Spirit*, Phyllis Sternberg Perrakis brings together eleven American and Canadian "literary gerontologists" to examine a new kind of adventure for the older woman in literature. This volume of critical essays analyzes recent works by contemporary women writers whose characters' midlife and later life changes are mapped in their narratives. Rather than focusing on the painful losses undergone by women of a certain age, recent narratives explore a new kind of adventure of aging, one that is spiritual in nature, enabling new ways of being and becoming, but open-ended and capable of great variation in practice. In particular, these journeys of the spirit focus on the retrospective movement undergone by a midlife or older woman as she is led by inner or outer forces to assess where she has come from and decipher a shape or pattern to her journey. These journeys do not leave the body behind as they map new spiritual territory. Rather they honor spirit's embrace of the natural world and relationships as well as its aspirations for evolving development and eternal existence. The essays in *Adventures of the Spirit* employ a wide variety of critical lenses to chart these adventures, including archetypal, Sufi, post-colonial, and feminist analysis; archival research; aboriginal life writing; and trauma theory. These studies bring a new understanding to women's adventure of age in both literary texts and in life.
